Courses designated with a superscript satisfy more than one goal area, although credits are counted only once toward the 40-credit minimum requirement. The superscript denotes the other corresponding goal area.

The **Minnesota Transfer Curriculum** is the result of a collaborative effort by all of the two and four-year public colleges and universities in Minnesota to define a common philosophy toward general education. The goal of this effort is to help students transfer their work in general education. Completion of a defined transfer curriculum at one institution enables a student to receive credit for all lower-division general education upon admission to any other institution.
