

In This Course You will Learn:

Pine Technical & Community College offers a Trained Medication Aide (TMA) course that includes an overview of metric, apothecary, and household measurement abbreviations with implications for use with medication administration.

Upon completion of the course, the student will receive a certificate of completion. Becoming a TMA will allow you to distribute patient medications in nursing homes, schools, correctional facilities, or other non-hospital facilities.

Prerequisite: Current Nursing Assistant Certification

TRAINED MEDICATION AIDE

Find Your Future at Pine Technical & Community College!

Trained Medication Aide

Are you interested in drug therapy, safe administration of prescribed medications, knowledge of drug action related to body systems, side effects of medications?

A Trained Medication Aide (TMA) distributes patient medications in nursing homes, schools, correctional facilities or other non-hospital facilities.

Medication aides are directly supervised by doctors or other licensed caretakers. They typically assist patients in properly taking oral prescriptions in correct dosages. TMA's may also monitor patients to ensure they do not have any adverse reactions after taking their medications.

If you're looking to get your foot in the door of the healthcare industry as quickly as possible, this is the course for you!

The latest data projects the need for Trained Medication Aides will increase by 11 percent by 2026.
