At Children’s Minnesota, we believe children are the most amazing people on earth — and that drives us to do everything we can to live up to the privilege of caring for them. As the regional leader in pediatric health care, Children’s is the only health system in Minnesota to provide care exclusively to children, from before birth through young adulthood. We serve kids throughout the Midwest at two free-standing hospitals, 12 primary and specialty-care clinics and six rehabilitation sites. We are actively looking to recruit Clinical Support Associates to join us in helping the most amazing people on earth.

Department overview
Clinical Support Associate/Nursing Assistants support patient care in a variety of different units. As a Clinical Support Associate/Nursing Assistant, you will provide patient care and support to various ages of children which can range from newborns through young adulthood including but not limited to acute medical/surgical, hematology/oncology, critical care and emergency patients. We provide opportunities to grow and make a difference for children and their families every day. As a Clinical Support Associate/Nursing Assistant you will play a vital role in Children’s national recognition for patient safety and family-centered care, the patient care leadership is dedicated to the growth and development of each of its team members.

Position summary
Clinical Support Associate/Nursing Assistants are key members of the patient care team and will provide safe patient care as delegated by licensed nursing staff based on the unit needs; you will also maintain equipment and supplies per unit standards. Many of our Clinical Support Associates/Nursing Assistants are nursing students pursuing a BSN degree. This role offers practical hands-on experience supporting patients and families.

Training and experience needed
Qualified applicants need to have completed one clinical course of an RN program or be actively listed on the Minnesota Nursing Assistant Registry. Current Basic Life Support (BLS) certification is required.

Career Opportunities
According to the Bureau of Labor Statistics, Nursing Assistants (Clinical Support Associates) should see a 9 – 18% increase in job growth between 2018 and 2028.
