At Cambria, the health and well-being of our employees is of great importance and we strive to provide a healthy and safe work environment. The Cambria Processing Facility has multiple automated production lines with many pieces of moving machinery including, but not limited to, mixers, conveyor belts, overhead cranes, aerial lifts and forklifts to move raw and
finished material. It is our policy to conduct field, production and office activities in a manner that promotes the safety and protection of employees, clients and the public. Employees are expected to contribute to their own and fellow employees’ health and safety by learning and exercising safe work practices.

Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities and activities may change at any time with or without notice.
